Spring Open Table Show Results

March 2025

We were a bit low on entries this year, undoubtedly due to the cold weather in the last few months. Many of us had but a few plants in flower at the time, and it has been suggested the Spring show could perhaps be in April next year.

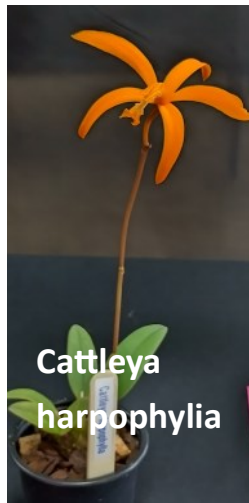

Laurence Hobbs Orchids (<https://laurencehobbsorchids.co.uk/>) brought a good selection of orchids from their nursery, enabling many of us to add to our collections, along with a cultural advice and repotting table too run by one of our members.
